NA	ALK	CoPilot Professional/ CoPilot Truck	Windows Embedded 8.1	CoPilot Professional is a flexible software and services platform enabling enterprises to deploy integrated, commercial grade turn-by-turn GPS navigation on Zebra Technologies mobile computers as part of a mobile workforce strategy. Using the device's internal GPS chipset and storing all map data offline, CoPilot Professional optimizes performance and reliability while removing any reliance on data downloads for navigation. CoPilot® Truck™ is a truck-specific GPS navigation solution that takes into account truck-restricted and prohibited roads to provide driver's safe and reliable navigation on truck-legal roads. Using customizable truck dimensions for height, length, width and weight/axel weight, drivers can calculate the optimal route that is both safe and legal, to avoid costly fines and vehicle damage. NA	Innovapptive Inc	mWorkOrder - Mobile Work Order Management	Windows Embedded 8.1	The mWorkOrder mobile app for Plant Maintenance empowers maintenance crews to work more safely, productively, and independently, whether installing new equipment or maintaining, inspecting, and repairing existing assets. Apart from that, the mWorkOrder app also mitigates the risk of injury by helping workers complete safety checks and follow safe work practices. With the mWorkOrder solution, maintenance workers are empowered with intelligence to identify and prevent failures and outages before they occur. This SAP® Certified solution leverages the SAP Plant Maintenance (PM) module at the back-end to deliver a consistent, reliable and a productive asset maintenance experience across a wide range of industries.
