

Direct Thermal Wristband with Adhesive Tape Closure

Series ZT30

Roll pack

Super Soft

Waterproof

Anti-microbial

Tear Resistant

About ZT30 :

ZT30 is specially made of super soft material, with medical EVA material basement gives frosting hand feel. This SKU# is also printed with heat-sensitive head by direct thermal printer, no ribbon needed at all. Furthermore, wristband is very safe and environmentally friendly. The design of adhesive tape closure is very convenient for caregivers.

Advantage :

- A little bit frosting hand feel makes patients feel more comfortable.
- Advanced manufacturing technology of waterproof, alcohol-proof and anti-liquid soap are available to keep the printing clear for identification.
- The unique anti-bacterial coating on the bands prevents the bacterium going inside which keeps patients safe.
- Good quality with reasonable price.

Features :

- Super soft basement, a little bit frosting hand feel.
- Adhesive tape closure with one-time use cutlines design.
- Waterproof more than 15 days.
- Flexible printing with texts, barcode, image etc.
